CAPABILITY STATEMENT · GOVERNMENT & HEALTH SYSTEM BUYERS

V&DG Management LLC

AI strategy and governance advisory for healthcare organizations.

Company Overview

V&DG Management LLC offers advisory and educational services to hospitals, health systems, and public health agencies on AI strategy and governance, ensuring human oversight in AI implementations.

Core Competencies

Capability	What we deliver
AI Strategy	Develop AI roadmaps for hospitals and health systems focusing on strategy and governance.
Governance	Implement robust AI governance frameworks to ensure ethical and compliant operations.
Readiness	Assess AI readiness across healthcare organizations and identify the gaps to close.
Policy	Develop and implement AI strategy and governance policies for healthcare organizations.
Education	Provide AI technology and application training to staff.
Workflow	Design human-in-the-loop AI processes for hospital and public health AI strategy and governance.

Differentiators

- **Healthcare Operator:** Founder-led by a healthcare operations and technology executive with COO and CIO experience.
- **Human Oversight:** Every AI workflow we design keeps a named staff member approving each output.
- **Privacy by Design:** Discovery work uses synthetic or de-identified data to protect patient privacy.
- **Practical Governance:** Policy-ready AI governance frameworks that healthcare leaders can adopt and apply.

Safeguards by design. Human approval on every AI output, privacy-protective discovery, and alignment with recognized AI risk and privacy frameworks.

Past Performance

Engagement	Scope
COO, home health agency	Directed day-to-day operations and process design across the agency as its Chief Operating Officer.
Interim CIO, two-hospital merger	Led the executive team in merging two hospitals into a health system, building cross-functional teams, and establishing governance protocols.
Current hospital engagements	Providing strategic guidance and governance frameworks for AI adoption in hospital settings, with human oversight.
